ANNOTATION

The article is dedicated to the analysis of the role of methods and tools in the study of the English language for today's students, quick and simple learning methods and the use of pedagogical technologies.

Keywords: Young people, English language, method, method, tool, effect, result, pedagogical technology.

In today's society, the concept of sophistication is considered as the foundation of the democratic process. When a person is born, he learns something every day. First of all, he grows up under the influence of his parents, tutor-teacher at school, neighborhood, neighbors, comrades and friends. It is important to teach the student high-spirited, spiritually rich knowledge of manners, convert him to faith, and guide him to perfection. Thanks to the independence, it was possible to create a unique and appropriate content and system of English in the primary grades. Students are taught manners (in English) such as greetings, family, respect for parents, hard work, sense of country, defenders of the country, shrines, good and bad habits, attention to cleanliness, magic words (thank you, thank you, good, sorry). Nature, its preservation, folk games, legends, fairy tales, lessons given to students by A. Navoi, A. Temur. independence and its founder, youth, innocence, old age, wisdom, frugality, beauty of nature, winged memory, narration, narration, wisdom, hadith and hadith scholars like Imam al-Bukhari, Imam al-Tirmizi and the spiritual heritage of our scholars are also taught. Purity, taste, mediocrity, elegance are taught in English classes. It is appropriate to use various methods to inculcate the qualities of beauty in the minds of students in English classes. In the lesson, there is a question-and-answer session staging, organization of travel lessons, game lessons, transfer, radio, television, video film and visual aids in the lesson, it is recommended to use poems and songs suitable for the topic. Students it is necessary to teach them to think independently, to speak freely, to express their speech, to listen patiently to their opinions. Today, it is our duty to form students with sophisticated, cultured and moral qualities in all aspects, while we are imparting national spirituality, values, and national education, it is necessary to use new pedagogical technologies suitable for the educational system. New pedagogical technology is a new method of teaching, a process aimed at strengthening and increasing knowledge of those who have given education and deep knowledge. English lessons should be creative, non-trWhen using pedagogical technologies, the teacher-educator must adhere to the following rules.

1. Modernity - introduction of innovations in the field of didactics, experience based on educational practice;
2. Continuous updating of educational content. Study carefully without being indifferent to the curriculum;
3. To study new creations in the field of general and national values;

4. Increasing the activity of the teacher and the student in the educational process;
5. Science is a new method, using tool problem cases, teaching students to think independently and self-awareness;
6. Involvement in practical activity based on topics;
7. Learning on best practices;
8. Understanding the purpose of the lesson, using visual aids, giving questions and assignments.
9. In order to implement the new pedagogical technology, every teacher must have deep theoretical knowledge in teaching manners additional, conversation, game, family, nature, debate, discussion, meeting.
